MAKE YOUR HONDA TRULY YOURS

What is better than Honda Genuine Accessories to make your Honda truly yours? For extra luggage capacity, improved comfort, rugged protections, extended performance or just an even better looking bike, we have everything covered. Built with the same attention to detail as your Honda, supported by a 2-year warranty*, our accessories will suit perfectly your bike and add to its value. Ask your local Honda Dealer. He knows how to make your Honda SUPERSPORT bike truly yours.

* Image shows motorcycle prepared for track use (not available for delivery in this form).
Road motorcycle includes indicators, rear view mirrors and number plate.
Specifications shown above are for Fireblade SP.

*The Blade that changed how sports
bikes were built*

Aiming to create a high-performance motorcycle that could defeat its own RVF750 in Endurance Road Races, Honda developed an R&D project that led directly to the CBR900RR, in 1992. With 128 HP, it was not the most powerful of its time. However, thanks to a dry weight of 185 kg when all rivals were well over 200 kg, the first Fireblade, soon nicknamed “Blade” by the fans, was so easy to control that it seemed to read its rider’s mind. More than 25 years after, the most powerful and nimble Honda bikes keep carrying the Blade legacy.

The CBR900RR Fireblade that started all.

PERFORMANCE & DESIGN

CARBON FRONT FENDER
08F71-MKR-D10
Made from the same lightweight, high-strength 3K pre-preg carbon used on the RC213V-S, this Carbon Front Fender reduces the unsprung weight. Its intense matt finish increases the Racing appearance of the Fireblade RR-R.
Same shape as the standard part but 38% lighter.

CARBON AIRBOX COVER
08F74-MKR-D10
The Carbon Airbox Cover is made from the same lightweight, high-strength 3K pre-preg carbon used on the RC213V-S. In addition to reducing the weight of the Fireblade RR-R, the intense matt finish increases the Racing appearance.
Same shape as the standard part but 20% lighter.

CARBON UNDER COWL
08F73-MKR-D10
The Carbon Under Cowl is made from the same lightweight, high-strength 3K pre-preg carbon used on the RC213V-S. In addition to reducing the weight of the Fireblade RR-R, the intense matt finish increases the Racing appearance.
Same shape as the standard part but moulded in one piece and 25% lighter.

CARBON REAR HUGGER
08F70-MKR-D10
Made from the same lightweight, high-strength 3K pre-preg carbon used on the RC213V-S, this Carbon Hugger reduces the unsprung weight. Its intense matt finish increases the Racing appearance of the Fireblade RR-R.
Same shape as the standard part but 10% lighter.

REAR SEAT COWL
08F75-MKR-D10ZA OR D10ZB
Make your motorcycle a racing machine look-alike, with this stylish Single Seat Cowl that also reduces the weight by 120 grams. Replacing the pillion seat with a single touch, this cowl cannot be used in conjunction with the Seat Bag. Space available under to install a GPS logger (GPS operation not guaranteed). 2 colours available:
• (D10ZA: Red *R380* / D10ZB: Black *NH801*)

HRC OIL FILLER CAP
08F81-MKR-D10
Made out of high-quality, precision-cut aluminium, this red anodized filler cap displays on both sides a laser-etched HRC logo. The inside has been hollowed out to both increase strength and reduce weight. For circuit riding, the cap also features the same wire-lock hole used on HRC works machines.

QUICK SHIFTER
08U73-MKR-D10
The Quick Shifter communicates the shift pedal operations to the ECU that controls fuel injection quantities, throttle levels and ignition timings. In return, the ECU removes the load from the transmission gear and allows up and down-shifts without operating the clutch. The Quick Shifter auto-blip functionality guarantees smooth and instantaneous down-shifts, contributing to a stress-free experience for both sporty and long-distances riding.
For Fireblade RR-R version only.

WHEEL STRIPE SET
TRICOLOUR *NH1*
08F79-MKR-D10ZA
This Wheel Stripes set incorporate the Honda Racing logo and increase the Racing appearance of the undercarriage.
For Grand Prix Red Fireblade RR-R.

PROTECTION

FRAME SLIDERS SETS
08P71-MKR-D10
Incorporating feedback from the RC213V works machine, these Frame Sliders can be nounted to the engine hanger bolts. Available in Black, this set of left and right frame guards does not guarantee protection in any circumstances should the motorcycle fall over.

SPROCKET PROTECTOR
08P77-MKR-D10
Preventing objects from getting caught in the sprockets, this Cover is made of heavy-duty materials and is designed to not impair the bend of the swing arm. Designed to conform to circuit regulations, this black cover also increases the Racing appearance of the Fireblade RR-R.

CBR TANK PAD
08P82-MKR-D10
Shaped to match the curves of the Fireblade RR-R tank, this Pad protects the paint from scratches. Flexible and sporty with its carbon-pattern material, the Tank Pad features the CBR logo and is available in Black.

COMFORT

HIGH WIND SCREEN
08R70-MKR-D10ZA / 08R71-MKR-D10ZA
Developed after wind-tunnel and real-life riding sessions, the High Wind Screen combines increased wind protection and improved motorcycle control. Compared to the standard version, the top of the wind screen is 8mm higher and 40mm further forward. Furthermore, as a Genuine Honda design, it is fully WVTA certified. 2 versions available:
• 08R70: Smoke
• 08R71: Clear

RIDER SPECIAL SEAT (ALCANTARA)
08R72-MKR-D10
Made of luxury Alcantara material that provides outstanding soft feel and superb breathability, the Rider Special Seat improves the riding comfort. Protected with a water repellent finish, the beautiful matt texture of this seat and the CBR branding increase the premium feel of the Fireblade RR-R.
Available only in Black / Grey with Red stitching.

USB POWER SOCKET
08ESY-MKR-USB
Based on a convenient type-C connector enabling the plug to be inserted in any orientation, this socket determines automatically the optimal charging voltage for connected devices. It comes with a cap preventing dirt or water to enter while not in use.
• Installation under the pillion seat
• Attachment included

LUGGAGE

TANK BAG
08L71-MKR-D10

This Tank Bag can be swiftly attached or removed and will remain firmly secured with its Tenax fasteners on the front. Its Honda Genuine design perfectly matches the tank shape to provide a 7 liters capacity without impairing the handling of the Fireblade RR-R. Clear pocket on the top with a slit to route a cable if need be. Zipped pockets on each side, carrying handle and rain cover achieve to make this tank bag the ideal luggage for your Fireblade RR-R.
Load capacity: 2kg.

REAR SEAT BAG
08L72-MKR-D10

This Rear Seat Bag has an adjustable capacity of 15 to 22 liters. It features convenient zipped pockets on each side and a carrying handle. A waterproof inside liner and a rain cover protect your personal items from the elements. Replacing the pillion seat, its base with fasteners keep the bag perfectly attached yet easy to remove, without the hassle of straps or tools.
Load capacity: 4kg.

SECURITY & MAINTENANCE

CHARGER LITHIUM EU (NOT SUITABLE FOR THE UK)
08M51-LIT-601

High efficiency diagnostic charger and tester for LiFePO4 / LFP batteries. Perfect to charge and maintain 12.8V-13.2V LiFePO4 / LFP batteries sized from 2 to 100 Amp-hour. Program control by microprocessor. Fully sealed.
Size : 199 x 71 x 61mm.
Cables length : 2m (for each of Input / Output cables). Wall mounts included.

INDOOR BODY COVER
08M72-MKR-D10

Made of a smooth, stretchable material, the bespoke cut of this black Body Cover fits the Fireblade RR-R perfectly and will protect it from dirt. For indoor use only (not waterproof). CBR branding displayed on both the cover and its storage bag. (Product may differ from the pictures displayed).

HSTC
HSTC

What does HSTC means?

Since 1992 with the ST1100 aka "Pan European" model, Honda equips more and more its motorcycles with a system called Honda Selectable Torque Control (HSTC). This system monitors constantly the speeds of the front and rear wheels via speed sensors incorporated into the Anti-Lock Braking System (ABS). When the rear wheel begins to rotate significantly faster than the front, the system reduces fuel delivery to the engine and limits rear-wheel slippage. In 2019 with the new CBR650R, Honda applied this technology for the first time to its mid-displacement SuperSport motorcycle. The rider can deactivate it on demand.

The CBR650R in action.

PERFORMANCE & DESIGN

QUICK SHIFTER KIT
08U72-MKN-D50

By measuring the intensity of the shifting input, the quick shifter enables the rider to change gear without the need to operate the clutch lever or shut the throttle. The system aids upshifting, maximizing the riding experience.

REAR SEAT COWL
08F72-MKN-D50ZA OR B

Add the final racing touch to your CBR650 with this rear seat cowl providing a comfort pad. For a more exclusive look, an Aluminium insert is available (08F76-MKN-D50 / Sold separately). 2 colours available:
- Grand Prix Red *R-380* (D50ZA)
- Mat Gunpowder Black Metallic *NH-436M* (D50ZB)

ALUMINIUM INSERTS
08F73-MKN-D50 | 08F75-MKN-D50 | 08F76-MKN-D50

High quality aluminium panels to enhance the design of your CBR650R.
- Seat Cowl Plate (08F76)
- Front Fender Panels (08F73)
- Side Cover Panels (08F75)

WHEEL STICKER SET - RED
08F84-MFJ-820A

Round-shaped 3-piece strips for easy application and a perfect fit on two 17-inch wheels. Honda Racing logo can be applied if preferred (included).

COMFORT

HIGH WIND SCREEN
08R70-MKN-D10 | 08R71-MKN-D10

Replacement screens offering additional wind protection without compromising visibility. 2 models available:
- Clear (08R70): €48,00
- Smoke (08R71): €58,00

12V SOCKET
08U70-MKN-D50

Installed under the seat of the unit, this 12V-socket will power all your electronic equipment.

GRIP HEATERS KIT
08ESY-MKN-HG19B

Extremely slim heated grips that provide 360° heat all around them with smart allocation that focuses on the area of the hands most sensitive to cold. Features integrated control for maximum rider comfort and design integration. 3-step variable heating levels are available. An integrated circuit protects the battery from draining. This kit includes the attachment (08E70-MKN-D10) and the special heat-resistant cement (08CRD-HGC-236H0).

LUGGAGE

TANK BAG
08ESY-MKJ-TKB18

Functional 3-liter capacity bag fitting the tank. The stable mounting does not disturb the handling of the CBR650. Clear pocket on the top for easy smart phone storage. Rain cover and attachment included.
Dimensions in mm (W x L x H): 178 x 285 x 130

REAR SEAT BAG
08ESY-MKJ-STB18

A simple and functional rear bag specifically adapted to the tapered shape of the rear seat. Easy and stable mounting thanks to the specific attachment kit included. 15-Liter storage capacity expandable to 22 Liters. Rain cover included.
Dimensions in mm (W x L x H): 355 x 365 x 243

PROTECTION

TANK PAD (CBR LOGO)
08P71-MKF-DK0

New design! Arrow shaped gray tank pad featuring the CBR logo. Helps to protect tank paintwork from scratches and rubbing.

TANK PAD (HONDA WING LOGO)
08P61-KAZ-800A

3-piece adhesive-backed tank pad in a carbon fibre effect and featuring the Honda Wing. Helps to protect tank paintwork from scratches and rubbing.

SECURITY & MAINTENANCE

€69.00

HONDA OPTIMATE 3
08M51-601E (EU) OR U (UK)
Suitable for all types of 12V lead-acid batteries of rated capacity from 3 to 50 Ah. Can restart much neglected batteries from as low as 2 Volts. No risk of overcharging and perfectly safe for vehicle electronics.

€99.00

REAR MAINTENANCE STAND
08M50-MW0-801
Tilting tubular steel stand that eases cleaning and rear wheel maintenance. Lifts the motorcycle by the end of its swingarm.

€129.00

U-LOCK
08M53-MFL-800
Tamper resistant barrel key U-Lock.

€79.00

OUTDOOR CYCLE COVER
08P34-BC2-801
A water-resistant and breathable cover that allows your bike to dry whilst covered. Protects the paintwork from UV rays. Supplied with an anti-flutter rope and two security holes.

Is reliability supposed to be boring?

It's not rare to find some CB500 proudly boasting more than 300,000 kms (more than 186,000 miles), but the long-time favourite of the couriers and the driving school is much more than a workhorse. Beginning in France in 1996, the CB500 Cup spread across Europe quickly. Since 2014, it is on CBR500R that young talents try to make a name by themselves, on a budget. Sebastien Charpentier or James Toseland, to name a few, started there.

The CBR500R Cup.

PERFORMANCE & DESIGN

€199.00

SEAT COWL
08F72-MKP-J00ZA, L OR R

Replaces the standard passenger seat for a more aggressive look. Available in 3 colours to perfectly match your CBR500R.
- Mat Axis Gray Metallic "NH303M" (J00ZA)
- Pear Metalloid White "NHA96P" (J00ZL)
- Grand Prix Red "R380" (J00ZR)

COMFORT

HONDA TECHNOLOGY

Honda has developed and applied many innovative technologies for its motorcycle range, designed to have the greatest possible benefit for you and the world around you.

ANTI-LOCK BRAKING SYSTEM

Reduces braking pressure by monitoring the wheel speed, preventing the wheels from locking up.

EURO 5

Complies with EURO 5 emissions regulations.

EURO 4

Complies with EURO 4 emissions regulations.

HONDA ELECTRONIC STEERING DAMPER

Minimises sudden steering changes at high speeds for enhanced riding ease and comfort.

HONDA EVOLUTIONAL CATALYSING SYSTEM

Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

HONDA IGNITION SECURITY SYSTEM

Only allows the bike to be started by its original encoded keys to effectively protect against theft.

HONDA SELECTABLE TORQUE CONTROL

If the Honda Selectable Torque Control (HSTC) system senses an imminent loss of rear wheel traction it reduces torque to allow the tyre to grip.

LED LIGHTS

Brighter and more energy efficient than traditional bulbs, with no time delay and a longer life.

PROGRAMMED DUAL FUEL INJECTION

Map-type computerised system maintains strong power and responsive performance in all conditions.

PROGRAMMED FUEL INJECTION

Map-type computerised system maintains strong power and responsive performance in all conditions.

RADIAL MOUNT CALIPER

Offers better alignment to the disc and rigidity. Radial-mount calipers are secured and supported at both ends providing less caliper flex and better braking performance

SMART KEY

This innovative technology improves both convenience and security. As long as your key is in your pocket or bag, you can release the seat and start the engine with the press of a button.

START MODE

Limits engine rpm based on rider preference, even with a wide-open throttle, letting the rider focus on clutch release (and lights) alone.

WHEELIE CONTROL

The IMU measures the pitch angle and, combined with front and rear wheel speed, manages the amount of height the front wheel gathers relative to the level of intervention selected. Level 1 is minimum Wheelie Control, level 2 medium and level 3 maximum. Wheelie Control can also be switched off completely.

FIREBLADE DESIGNED FOR SPEED

FULL BREMBO KIT WITH STYLEMA® FRONT BRAKE CALIPERS*
Incredible braking power is provided by the latest Brembo Stylema monobloc four-piston radial-mount front brake calipers – with Brembo brake lever and master cylinder to match. The calipers maintain rigidity but are 7% lighter, with less internal fluid volume for more immediate reaction.

For flexible ability (and along with Rear Lift Control) the ABS gains two switchable modes; SPORTS mode focuses on road-riding performance, with high brake force and less pitching, while TRACK mode offers power and feel braking from much higher circuit speeds. Both are controlled with input from the six-axis Inertial Measurement Unit (IMU).

SECOND-GENERATION SEMI-ACTIVE ÖHLINS ELECTRONIC CONTROL (S-EC)*
The Öhlins NPX fork uses a pressurised damping system to minimise cavitation, resulting in more stable damping control and improved bump absorption at high speeds. Feel for front tyre grip is also enhanced. The rear shock is also by Öhlins; the upper mount attaches at the back of the engine to enhance high-speed handling.

LAUNCH CONTROL FOR FAST STARTS
The CBR1000RR-RR-R Fireblade is equipped with Start Mode. It limits engine rpm at 6,000, 7,000, 8,000 and 9,000rpm set-points, even with a wide-open throttle, letting you focus on clutch release (and lights) alone. A quickshifter is also fitted as standard, with performance optimised for racetrack performance and reliability.

*CBR1000RR-R Fireblade SP

DREAMS REALLY DO COME TRUE

Soichiro Honda said,

'We only have one future, and it will be made of our dreams, if we have the courage to challenge convention.'

Honda's philosophy in dreaming of a better world for people catalysed the invention of the ASIMO, HondaJet, NSX and the legendary Africa Twin. Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. It takes independent thinking and audacity to pursue dreams. It also takes passion and innovation to never allow the dream to die and to shape them into a reality for the modern-day world.

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please contact your local dealer for information and specifications. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you did so entirely in reliance on your own skill and judgement and not on that of anyone else.

RIDE WITH STYLE Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.
